La Fabrique Écologique (Think Tank)

Sous-titre

Webconference - 11 mars 2021

Visuel

Chapô

For several years now, autonomous vehicles, also called self-driving vehicles, have been greeted with extraordinary enthusiasm. They are presented as the future of motorized mobility, whether in terms of safety, services or ecology, and they appear to question the relevance of traditional public transport. Yet many questions persist. On this page, you can watch the videoconference where the Mobile Lives Forum and the thinktank La Fabrique Écologique present the conclusions of a report conducted on this issue.
